1 BASEBALL CARDS Interesting grouping of Baseball Cards and more. Displayed are some of the "W" series of cards from before 1920 with early Hall of Famers like Rogers Hornsby, Eddie Collins, Zack Wheat, Hack Wilson, Tris Speaker, and Grover Alexander. These cards would make great fillers and conversation pieces for any card collector. Also included are several Nolan Ryan cards, a rookie card of both Robin Yount, Tony Perez and Keith Hernandez, two 1969-70 Topps Basketball cards (commons to this popular set, and more. Early cards range from poor to fine. Later cards are VERY FINE, or better. CV 0.00

The collection includes complete covers not only form air balloons, but also "Boules de Moulins", mail type where letter were expected to be launched in hollow zinc balls and then fished out from Seine in Paris, since "air mail" deliveries back into Paris were not deemed possible. While the lot includes good number of issues from the first half of the 20th century, by far the bulk of the volume of the lot is made up from the issues from between 1970s and 90s duplicated in stock quantities. The lot is primarily and nearly virtually all mint as just the mint portion of the lot would come to over \$170,000 and a such would most appeal to dealers looking for resale potential, especially since roughly 7,000 miniature/souvenir sheets are still packed in post office packets of 100 as issued. This is an exhaustive lot with a myriad of subdivisions including several hundred used year sets from the second half of the 20th century covering Poland and even some neighboring countries like DDR or Czechoslovakia. Total estimated catalogue value of the lot would be in a region of \$30,000 combining postcards and year sets. Besides regular issues the lot includes a lot of footnoted imperforated varieties like #763 (imperf sheets 40), and many others. Despite the massive scope of the lot it is very well organized in chronological order with roughly 1,500 different covers. The duplication levels are progressive as the time goes on changing from 4-6 to 20-30 in the 1980s. An attractive feature of the lot is very meticulous inclusion of such philatelic curiosities like regular first day cover followed by the same cover with an airmail sticker 'Par Avion' on it as in many instance the Fischer catalog points out the difference between regular and airmail covers. The lot is clearly aimed at dealers looking for breakdown and resale value simply due to the scope of the lot, since the lot could be easily broken down into couple dozens similar smaller lots covering the Polish philatelic history in great detail especially the period from 1960s to mid 1990s, VERY FINE	SB	6,000.00

Great number of issues are still in original wrapping as issued by the Polish post office in packets of 100 sealed, never opened. The lot could be broken down into hundreds of individual lots presenting modern Polish philately in a comprehensive manner as scores of stamps are included with se-tenant labels, usually only footnoted in Scott catalog. This lot would most surely require an effort to organize and shape it into a comprehensive worldwide collection that it is ought to be, but realistically these eight cartons hold everything required to do so. As as duplication goes it is very low, namely due to the nature of how the stamps are presented - mostly on a variety of album pages rather than stockpages.
