First, an eight volume highly complete mint collection to 2010 in seven matched Lindner hingeless specialty albums for both singles and MI blocks (the retail for the Lindner albums alone is nearly \$2000, then there is a similar virtually complete mint UN singles and MI blocks to 2010 in five matched clean green Scott Specialty album volumes (the retail value for these five albums new is over \$1450). And then there is another virtually complete mint collection to 2010 for both singles and MI blocks in 7 matched White Ace specialty albums (the albums retail for over \$1000. So all in all you have 19 pristine well filled UN volumes, the albums of which are all in great , like new shape and are loaded with stamps and the albums of which cost the owner over \$4500 in new album costs. The stamps included numerous premium items and total nearly \$4000 postage value. Considering the \$8-\$10,000 that was spent on this collection is a good value at our price. All stamps VF, OG, NH

		CA	2,250.00	1786 *0	[ORANGE RIVER COLONY - EXCEPTIONAL COLLECTION] This is a beautiful collection of well over 400 mint and used issues covering the postal stamps of the Orange River Colony in great detail. The collection includes an array of early Republic issues with a variety of different shades. However the bulk of the catalog value comes from an exhaustive study of numeral and the V.R.I. - Victoria Regina Imperatrix - overprints that includes a literal cornucopia of minor varieties with dots omitted, elevated, letters printed in thick script and others. Most importantly every variety is correctly identified by the collector including the sequences of printings, the level of detail that even Scott Classic catalog does not differentiate between. The collection is a spectacular example of philatelic dedication to a very narrow area and would surely appeal to serious collectors of Orange River Colony or South African philately in general, as it very well may take years to gather such an impressive array of minor varieties, F-VF, mint og

FRENCH COLONIES								
	2296	*0	[FRENCH COLONIES - NOSSI BE & OBOCK - PREMIUM SELECTION] Obock was very significant for the French as it was their first possession in the region. Essentially the French desired to have their own coaling station for steamships as prior to that they would rely of a British port of Aden to re-supply their steamships and considering the history between France and Britain that surely wasn't a safe arrangement for the French. The collection is a very attractive 19th century selection of close to 100 different mint and used issues with a very high ratio of premium content from both sections. While Obock section dominates the lot, accounting for close to 3/4 of the catalogue value of the lot, both sections include premium individual standouts and in total amount to just under \$5,000! 				3078 *0	[POLAND] An immense mostly mint stock accumulation of close to half a million stamps organized in catalog order housed in 13 large cartons. The catalog value of the lot would be well in excess of \$200,000		

		as the selection includes many premium issues form an earlier period like dozens of the never hinged souvenir sheets commemorating the visit of King Karol to Poland in 1937, each set has a catalog value of \$120! While the lot includes good number of issues from the first half of the 20th century, by far the bulk of the volume of the lot is made up from the issues from between 1970s and 90s duplicated in stock quantities. The lot is primarily and nearly virtually all mint as just the mint portion of the lot would come to over \$170,000 and a such would most appeal to dealers looking for resale potential, especially since roughly 7,000 miniature/souvenir sheets are still packed in post office packets of 100 as issued. All the issues are neatly grouped together and arranged in Scott catalog order, which would facilitate multiple comprehensive collections of modern period Polish philately.	SB	40,000.00			collection of well over 4,000 different issues covering Polish philately from the very first stamp going all the way to 2005 housed in three hingeless Scott Specialty albums. The collection is a very comprehensive representation of Polish philately as virtually complete collection of major varieties up to 2005 is very nicely complimented by hundreds of imperf varieties, often merely footnoted under the major listings. The collection includes a high ratio of premium content with Semi-postal and Airmail souvenir and miniature sheets being prominent among notable standouts like [#30-40, 61-71, 72-76, 81-92, 215-26, 227-37, 247-48 (NH), 251, 275 (NH), 275, 277, 280-81 (2), 284-86 (NH), 314-16 (NH), 341-43, 362-63, 539, 647-56, B15-25, B40 (imperf pair), B26-27 (NH), B29-29C (NH), B31 (NH), B41 (imperf pair), B49-49B, B106, B107, C1-C9, C26A-26C, C34, C26Cd (NH), C34 (imperf sheet),] and many more, gen. 3079	CV	[POLAND - POST CARDS 1960 - 2005] An extensive stock selection of over 50,000 postcards from 1960 going well into the early 2000s organized in chronological order by Fischer catalog number. The lot includes roughly 1,500 different postcards and in total the catalog value would be in the region of \$45,000. In general the duplication levels are fairly manageable even if on the higher side, after all the lot occupied 19 large cartons! Roughly about 15% of the volume of the lot is made up of individual year sets already neatly packed and identified, so that individual collections covering decades of Polish postcards could be broken out quite effortlessly. The rest of the lot is organized by Fischer catalog number with more or less uniform duplication, so the lot offers could breakdown and resale potential and as such would surely appeal to dealers, especially those operating with Eastern European philatelic artticles.	SB	8,500.00	3082	*0	[POLAND] Huge accumulation of thousands upon thousands of mint and used issues covering the Polish philately of the mid 20th century going from the 1940s to the 1980s. The lot combines postal issues with an extensive selection of postal covers, first day covers and other philatelic items like postcards etc. The lot includes some material from outside Poland, but the lot is dominated by the Polish philatelic issues and just the stamps alone add up to roughly \$38,000 in catalogue value. This is a massive lot contained in six large cartons (nearly two cartons are taken up by covers, postcards etc.) and should appeal to dealers looking for breakdown value as duplication is generally high throughout. One notable standout section is the Butterflies issue of 1991 that is duplicated in vast quantities (includes over a thousand complete sheets as well as souvenir sheets!), gen. 3080	CV	[POLAND] Huge accumulation of roughly 15,000 articles like postcards, overprinted covers, first day covers, regular covers from Poland and international ones in one way or another related to Poland. The lot is largely topical as for example it includes cards and covers celebrating the legacy of Nicolaus Copernicus on Polish covers as well as US and other countries. Besides thousands of articles related to Mikolaj Kopernik, the lot includes many covers dedicated to Scouts, ships, variety of Polish cities and memorable events in Polish history. While postcards are somewhat dominating, the lot also includes in excess of maxi first day covers from the 21st century. This is an exhaustive lot with a myriad of subdivisions including several hundred used year sets from the second half of the 20th century covering Poland and even some neighboring countries like DDR or Czechoslovakia. Total estimated catalogue value of the lot would be in a region of \$30,000 combining postcards and year sets. All in due to extensive duplication levels as many articles include dozens of duplicates this lot would be most suited to dealers looking for resale potential as such vast quantities of Eastern European articles come by rarely on this side of the Atlantic, gen. VERY FINE	SB	7,500.00	3083	CV	[POLAND - FIRST DAY COVERS] Massive accumulation of over 25,000 first day covers bearing Polish stamps from 1954 to 2000 housed in eleven large cartons. Despite the massive scope of the lot it is very well organized in chronological order with roughly 1,500 different covers. The duplication levels are progressive as the time goes on changing from 4-6 to 20-30 in the 1980s. An attractive feature of the lot is very meticulous inclusion of such philatelic curiosities like regular first day cover followed by the same cover with an airmail sticker 'Par Avion' on it as in many instance the Fischer catalog points out the difference between regular and airmail covers. The lot is clearly aimed at dealers looking for breakdown and resale value simply due to the scope of the lot, since the lot could be easily broken down into couple dozens similar smaller lots covering the Polish philatelic history in great detail especially the period from 1960s to mid 1990s, VERY FINE	SB	6,000.00
