The collection close to 1,000 covers from the period sporting a variety of different combinations including pairs, blocks of complete sets on covers. Whether it's interim period celebrating Chaim Nachman Bialik and Theodore Herzl, Jerusalem locals, Nahariya locals or others, the covers are accompanied by thousands of mint (and some used) issues, including many premium standouts like joined sheetlets of Nahariya Locals (Bale #117 & #118). The catalog value of the lot would be very high since most of individual covers are priced in the region \$10 - \$20 and the above mentioned sheetlets are well with hundreds of dollars. However, some of the most interesting subsections of the lot is the inclusion of two volumes containing hundreds of postmarks on cables for regions of Ramallah and Jerusalem covering the period from 1948 to 1967. Overall, this is very comprehensive coverage of a very specialized area related to Israel and simply, due to an all inclusive nature of the lot, should appeal to serious collectors of early period Israel, gen. Macao attracted thousands of people due to its fusion of European/Asian culture, traditions and ambience. It is the only place in China where one can legally gamble, and it sure seems that to be an attractive place to be with population density of 50,000+ people per square mile (five times the density of New York City!). The stamps of Macao have historically have just as desirable and sought after, as they trace the rich and intertwined cultural tradition of Portuguese undertones in the far east. Even visually the stamps of Macao represent an eye candy for collectors, and it is most evident through their vivid souvenir sheets. While many issues include duplication, all the issues are meticulously accounted for and housed in a very neat manner in catalog order. This is one of those lots that would provide an exceptionally strong core to start a Venezuelan collection, and if one was inclined to extend his philatelic interests in that direction - this is the lot that will accommodate it. Alternatively due to very well organized manner of the lot and the fact that much of the content if duplicated, is duplicated in similar numbers, this lot should equally appeal to dealer looking for break down and resale potential, though purely form philatelic point of view it would be preferable to keep a lot like this together, F-VF, mint og (We scanned only one of the four books, roughly 1/5 of the lot, but gives a rather good idea of the entire lot)	SB	4,500.00	3455 *	[YEMEN - IMPERFS AND SPECIALTY ITEMS] over 750 stamps, all very scarce. The collection is strong in most all areas-British Commonwealth, French colonies, Latin America and Europe and European colonies. We have hardly turned every one of the 15,000 album pages in this collection so lots of surprises should be in store for the buyer. In case of France this is elevated to a whole different level as cultural diversity and an ongoing discourse about what it means to be of any certain nationality. Considering that French artists draw inspiration for their stamps designs from all over the globe, for example one of the latest reincarnations of topless Marianne leading French revolutionaries was inspired by 2014 photographs of Ukrainian feminist protesters, it is no wonder that one can find a Francophile in every corner of the globe.
