This is a tremendous, very comprehensive collection containing thousands of dollars in postal face value alongside thousands of covers, postcards and numerous other philatelic articles. The lot is largely still in original envelopes that the material was mailed in from UN, but the selection includes a dozen of very nice padded albums with slipcases for first day covers and other stock books. This is a very comprehensive and costly lot as bulk of the material comes from the period when postal costs have spiked upwards (the owners cost records indicate that he spent over \$18,000 with the United Nations Postal Administration., VERY FINE, og, NH SB	6,000.00		together over years of careful buying and was a work in progress for a retirement business that never materialized. Never sold from, this stock is only better items and has only premium stamps. Each stamp or small group of stamps is in a dealer counter card accurately cataloged and graded. The United States portion- in two of the five boxes- is by far the best having a "currentish" Scott value (the dealer put stamps in stock over the last few years and used the 2013-2016 Scott catalog) of \$154,000. The Foreign, also in two boxes has a current Scott of over \$72000 (adding machine tapes of the Scott value in each box are included for easy reference). There is a fifth small box of better covers that the dealer planned on asking \$2500 for. [Thus the total Scott value is \$226,000 plus the covers]. We rarely sell such comprehensive and valuable lots intact without removing the better items for individual sale or lotting as specialized groups. This lot is offered completely intact and, we think, at a very attractive price. SB	60,000.00

1227 *0	[GREAT BRITAIN] Classic philately emphasized the study of minute varieties on classic stamps and the early stamps of Great Britain are among the most specialized in the world. Nearly every one of the thousands of stamps in this wonderful 83 volume (!) collection (in five large cartons) is identified by the Stanley Gibbons Victoria specialized catalog number, along with identifying characteristics (the vast majority of the stamps are different Gibbons varieties, not just quantities of the same stamp). The quality is excellent and the collector spent thousands of hours researching, mounting and neatly annotating this collection (and he spent over \$100,000 on it as well). Neatly cataloged by the 2006-2008 Gibbons catalog, the collection has a Gibbons value L585,000= \$790,000). We flat scanned one volume just as a taste of what you get (remember the collection is 83 volumes). One of the nicest, specialized Great Britain collections in existence offered completely intact, at a very attractive price. This is a specialist's collection. The collector spent a loving lifetime on his stamps selecting thousands of stamps from Penny Reds to early twentieth century highly specialized by Gibbons plate numbers, shades, "Black Plates" on Penny Reds and all sorts of more arcane GB items. Included are some stamps that catalog up to \$2500 each but expect the real value of the collection to be a student's rendering of what highly specialized nineteenth and early twentieth century GB philately can look like. Everything is neatly annotated and mounted and can be easily broken down by volume			1232 *0					[GREAT BRITAIN - HIGH QUALITY THREE VOLUME COLLECTION]in a lovely set of matching Lindner Hingeless Specialty Albums. 1899 * [BRITISH EMPIRE - KING GEORGE VI] The coronation of King George VI was the last imperial event celebrated on a global scale throughout vast British Commonwealth. Furthermore it was the first coronation of a British monarch that had live coverage on radio and television, albeit very few household would have a TV set at home, for all practical reasons this was the first time a monarch could address an entirety of his subjects live. One could imagine rooms full of people standing in attention before a radio set. After a shock abdication of Edward VIII, the establishment went out of their way to show that it was business as usual, the budget allocated for the celebrations dwarfed the 1911 coronation of King George V by over three times. This is a fantastic high quality stock selection of roughly 2,000 mint stamps from all over the Commonwealth, which still included the jewel in the crown India. The selection is organized in an alphabetical order from Aden to Virgin Islands with very impressive ratio of high value minor varieties of 10' or £1 stamps and others. Commonwealth issues from Aden to

 complete sets from the 1960s. Individually

 with only few issues duplicated in stock

As a result, the value of the Deutsche Mark depreciated tremendously. Originally meant as a device to decrease the real cost of these reparations, currency inflation soon got so out of hand that this period of German history has become a paradigm for fiscal irresponsibility. VERY FINE, og, NH	SB	1,100.00	2641	[GERMANY] Between 1921 and 1924, Germany was required to pay to Great Britain and France reparations as a result of defeat in World War I. As a result, the value of the Deutsche Mark depreciated tremendously. Originally meant as a device to decrease the real cost of these reparations, currency inflation soon got so out of hand that this period of German history has become a paradigm for fiscal irresponsibility. The Mark went in value

2649	*	[GERMANY - MINT MODERN STOCK] An extensive mint stock accumulation of several thousand mint never hinged issues covering West German philately from the early issues in 1946 going all the way to 2011. Even though the period covered by the lot begins in the middle of the 20th century and includes individual standouts like [#693 (2 NH), 1028-44, 1475-94A (100), B294-95 (NH), by far the bulk of the catalog value of the lot that is above \$34,000 comes from the last two decades of the 20th century and the €€€ period stamps, duplicated in higher quantities. The lot includes a very high ratio of souvenir and miniature sheets with all of them individually packed in Scott numbered envelopes and glassines. Sizeable portion of the lot is made up by inclusion of complete sheets of Famous women from 1986-91 in sheets of 100 and subsequent issues. Another large notable subsection is the West Berlin issues including better like [#9N67 (NH), 9N69 (NH), 9N120-N36,] with just the Berlin subsection sporting over \$3,000 in catalog value. This is certainly a dealer type lot with rather uniform duplication throughout in many cases going up to 100 duplicates, VERY FINE, og, NH			2653	[GERMANY-POSTAL STATIONERY] In the post WW II period no national post office has devoted more energy and time to its postal card and postal stationery program. The Bundespost has issued thousands of different cards, mostly as differing view cards in sets of up to 200 different views of each card. The collector who made this collection was an avid philatelist with a fierce desire to complete all of the cars, an active subscription to the Bundespost's sale program, and an enormous amount of money 9his invoices for the collection totaled over 20,000 Deutsche Marks. this collection has about 8500 different cards either mint or with First day cancels, all in complete sets. The current Michel catalog is over 15000 Euros and you would be hard pressed to find a similar collection for love or money. If your traditional Germany collection of stamps needs little for completion, this is a good area to invest your energies with relatively low cost per item, high quality and great philatelic interest. The catalog value of the lot would be well in excess of \$200,000 as the selection includes many premium issues from an earlier period like dozens of the never hinged souvenir sheets commemorating the visit of King Karol to Poland in 1937, each set has a catalog value of \$120! While the lot includes good number of issues from the first half of the 20th century, by far the bulk of the volume of the lot is made up from the issues from between 1970s and 90s duplicated in stock quantities. The lot is primarily and nearly virtually all mint as just the mint portion of the lot would come to over \$170,000 and a such would most appeal to dealers looking for resale potential, especially since roughly 7,000 miniature/souvenir sheets are still packed in post office packets of 100 as issued. All the issues are neatly grouped together and arranged in Scott catalog order, which would facilitate multiple comprehensive collections of modern period Polish philately.</p>	SB	40,000.00	<p>covers, first day covers, regular covers from Poland and international ones in one way or another related to Poland. The lot is largely topical as for example it includes cards and covers celebrating the legacy of Nicolaus Copernicus on Polish covers as well as US and other countries. Besides thousands of articles related to Mikolaj Kopernik, the lot includes many covers dedicated to Scouts, ships, variety of Polish cities and memorable events in Polish history. While postcards are somewhat dominating, the lot also includes in excess of maxi first day covers from the 21st century. This is an exhaustive lot with a myriad of subdivisions including several hundred used year sets from the second half of the 20th century covering Poland and even some neighboring countries like DDR or Czechoslovakia. Total estimated catalogue value of the lot would be in a region of \$30,000 combining postcards and year sets. All in due to extensive duplication levels as many articles include dozens of duplicates this lot would be most suited to dealers looking for resale potential as such vast quantities of Eastern European articles come by rarely on this side of the Atlantic, gen. The lot combines postal issues with an extensive selection of postal covers, first day covers and other philatelic items like postcards etc. The lot includes some material from outside Poland, but the lot is dominated by the Polish philatelic issues and just the stamps alone add up to roughly \$38,000 in catalogue value. This is a massive lot contained in six large cartons (nearly two cartons are taken up by covers, postcards etc.) and should appeal to dealers looking for breakdown value as duplication is generally high throughout. Despite the volume of the lot, it is very well organized as every issues is housed in Scott identified folders, mostly in complete sheets of 20-35-50. In total the lot adds up to just under \$130,000 in catalog value! The duplication levels varying from a dozen of stamps to dozens of complete sheets like for instance in the case of Royalty Issues of 1986 and numerous subsequent sets celebrating the Polish nobility. Great number of issues are still in original wrapping as issued by the Polish post office in packets of 100 sealed, never opened. The lot could be broken down into hundreds of individual lots presenting modern Polish philately in a comprehensive manner as scores of stamps are included with se-tenant labels, usually only footnoted in Scott catalog. Ultimately the lot should appeal to dealers working with the Eastern European philately as such quantity of pristine never hinged modern sheets are seldom encountered in one lot, VERY FINE, og, NH</p>	SB	30,000.00	3404 CV	<p>[POLAND - FIRST DAY COVERS] Massive accumulation of over 25,000 first day covers bearing Polish stamps from 1954 to 2000 housed in eleven large cartons. Despite the massive scope of the lot it is very well organized in chronological order with roughly 1,500 different covers. The duplication levels are progressive as the time goes on changing from 4-6 to 20-30 in the 1980s. An attractive feature of the lot is very meticulous inclusion of such philatelic curiosities like regular first day cover followed by the same cover with an airmail sticker 'Par Avion' on it as in many instance the Fischer catalog points out the difference between regular and airmail covers. The lot is clearly aimed at dealers looking for breakdown and resale value simply due to the scope of the lot, since the lot could be easily broken down into couple dozens similar smaller lots covering the Polish philatelic history in great detail especially the period from 1960s to mid 1990s, VERY FINE</p>	SB	6,000.00

Gen. VERY FINE	SB	900.00	3778 *0	[COMPLETE INTACT EBAY DEALER'S STOCK ON A COUPLE THOUSAND DEALER COUNTER CARDS IN FIVE SMALL BOXES]. This stock was put together over years of careful buying and was a work in progress for a retirement business that never materialized. Never sold from, this stock is only better items and has only premium stamps. Each stamp or small group of stamps is in a dealer counter card accurately cataloged and graded. The United States portion- in two of the five boxes- is by far the best having a "currentish" Scott value (the dealer put stamps in stock over the last few years and used the 2013-2016 Scott catalog) of \$154,000. The Foreign, also in two boxes has a current Scott of over \$72000 (adding machine tapes of the Scott value in each box are included for easy reference). There is a fifth small box of better covers that the dealer planned on asking \$2500 for. [Thus the total Scott value is \$226,000 plus the covers]. We rarely sell such comprehensive and valuable lots intact without removing the better items for individual sale or lotting as specialized groups. This lot is offered completely intact and, we think, at a very attractive price.

Duplication varies form country to country and in some cases might be higher, but generally is very manageable and the selection as a whole is very well organized. The sheer volume of stamps should make this appealing for breakdown and resale as national selections could easily be formed, F-VF	CV	1,100.00			
3915 *	[MINT EUROPEAN € PERIOD SELECTION] Very nice mint never hinged selection of over a thousand different issues from across western Europe, all from the post 2000 period. The core of the lot is made up by stamps from Germany, Greece, and Spain. The total postal face value of the lot is €915, out of which Germany accounts for over 1/3 of it. While all countries included, besides the three main subsection the lot includes issues from Monaco, France, Luxembourg, contain similar mix of individual issues with compete booklets and sheetlets, Greece stands out as an exception where an entire subsection is just one set of complete sheets of 20 [#\2307-18] from 2007 in total boasting face value of €235! Essentially the lot should appeal as a straight forward European postage lot, or since the duplication levels are very low it should be equally attractive to collectors of modern European stamps, VERY FINE, og, NH	FACE	1,080.00
