					849	*0	[GREAT BRITAIN] Classic philately emphasized the study of minute varieties		

		on classic stamps and the early stamps of Great Britain are among the most specialized in the world. Nearly every one of the thousands of stamps in this wonderful 83 volume (!) collection (in five large cartons) is identified by the Stanley Gibbons Victoria specialized catalog number, along with identifying characteristics (the vast majority of the stamps are different Gibbons varieties, not just quantities of the same stamp). The quality is excellent and the collector spent thousands of hours researching, mounting and neatly annotating this collection (and he spent over \$100,000 on it as well). Neatly cataloged by the 2006-2008 Gibbons catalog, the collection has a Gibbons value L585,000= \$790,000). We flat scanned one volume just as a taste of what you get (remember the collection is 83 volumes). One of the nicest, specialized Great Britain collections in existence offered completely intact, at a very attractive price. This is a specialist's collection. The collector spent a loving lifetime on his stamps selecting thousands of stamps from Penny Reds to early twentieth century highly specialized by Gibbons plate numbers, shades, "Black Plates" on Penny Reds and all sorts of more arcane GB items. Included are some stamps that catalog up to \$2500 each but expect the real value of the collection to be a student's rendering of what highly specialized nineteenth and early twentieth century GB philately can look like. The collection is a very comprehensive representation of philately of New Zealand as numerous steps are presented on their own, in miniature sheets, booklets in total adding up to \$1,281 NZD (\$925 USD). The lot includes very minimal duplication, the duplicates account for roughly 1/5 of face value of an entire lot, and should appeal to collectors with interest in modern philately of New Zealand. 1359 * [BRITISH EMPIRE - KING GEORGE VI]
The coronation of King George VI was the last imperial event celebrated on a global scale throughout vast British Commonwealth. Furthermore it was the first coronation of a British monarch that had live coverage on radio and television, albeit very few household would have a TV set at home, for all practical reasons this was the first time a monarch could address an entirety of his subjects live. One could imagine rooms full of people standing in attention before a radio set. After a shock abdication of Edward VIII, the establishment went out of their way to show that it was business as usual, the budget allocated for the celebrations dwarfed the 1911 coronation of King George V by over three times. This is a fantastic high quality stock selection of roughly 2,000 mint stamps from all over the Commonwealth, which still included the jewel in the crown India. The selection is organized in an alphabetical order from Aden to Virgin Islands with very impressive ratio of high value minor varieties of 10' or £1 stamps and others. Duplication levels are very manageable throughout and individually some of the most notable standouts include premium like Aden [#16-27a (2), 36-46 (3),] \$525 Antigua [#84-95 (3),] Ascension [#40-49 (3),] Australia [#166-79, 170 (4), 178 (2), 179 (2), C4-C5,] Bahamas [#100-113, 113 (2),] Barbados [#193-201A,] Basutoland [#18-28,] Bechuanaland Protectorate [#124-36,] British Honduras [#115-26,] Bermuda [#126, 127 (2), 128,] Burma [#18A-33,] Cyprus [#155, 168-82,] Cayman Islands [#91 (8), 93 (6), 94 (7), 95 (6), 96 (3),] Falkland Islands [#1L1-1L8 (2 sets reissued in 1948),] Fiji [#131A (3), 131B (2),] Gibraltar [#117 (5), 118 (3),] Gilbert & Ellice Islands [#40-51 (4), J1-J8,] Gold Coast [#115-27,] Grenada [#131-42,]

	with very limited duplication focusing mainly on the early period and going to 1970s. The collection is put together by a true enthusiast of French philately and is built around a very impressive set of three Senator albums with homemade pages filled to a very high standard (especially great attention paid to the high value semi-postal and airmail issues) with very informative listings detailing every issue. The Senators albums include many premium sets amongst some 1,500 different issues with most notable standouts like mint [#400-14, 477-95, 624, 700-05, B117-28, B135-46, B157a, B238-43, B249-54, B258-63, B267-72, B276-81, B285-90, B294-99, B303-08, C22, C23-27, C29-32,] and many others dealing primarily with the middle of the 20th century period. This is followed by a Minkus album filled with some 1,000 different earlier period stamps including better like mint [#198-201, 220-25, 306, 311-12, 321, B117-28, B135-46, C11, C12, C13,] & many others. The lot as a whole is fascinating study of the French philately which is further enhanced by inclusion of such standouts like the sheet of ten stamps commemorating the centenary of the first issues in 1949 [#624a,] and so much more. This is a great lot for anyone interested in French philately and if housed in a high quality hingeless dedicated album could instantly turn into very prestigious and comprehensive collection, gen. 						1618	*	[CONGO PEOPLES REPUBLIC - 21ST CENTURY SOUVENIR SHEETS] Very attractive modern mint never hinged stock selection of well over 400 souvenir sheets in complete sets, all from the most recent 15 years. This is a beautiful selection representing the philately of Congo as well as the entire continent, as modern souvenir sheets form Africa (often printed by European contractors) boast strikingly beautiful and bold designs. However several countries suffer from uncertain political status of the government throughout Africa and the issues of People's Republic of Congo is no exception, as Scott catalog would not list them for the very same reasons of uncertainty. But ultimately this lot should be appreciated by modern International/African collectors as these modern sheets rarely show up in comparable quantities, VERY FINE, og, NH (We only took a sample of over view shots to give you an idea about the lot)		SB	1,500.00

The last twenty years account for a major bulk of the total catalogue value of well over \$50,000 in total. Attractively the lot includes thousands of souvenir and miniature sheets, four volumes dedicated to souvenirs sheets exclusively, generally duplicated in very much comparable quantities to the regular issues. Overall duplication levels are very manageable (generally ranging between a dozen copies of mint and used sets and here and there 30-40 together, but very well organized thus manageable) and fairly uniform throughout, so the lot should certainly appeal to dealers looking for breakdown and resale potential, as one could make dozens of very comprehensive collections of modern Poland, VERY FINE, mint og, most NH	SB	8,000.00			covers bearing Polish stamps from 1954 to 2000 housed in eleven large cartons. The duplication levels are progressive as the time goes on changing from 4-6 to 20-30 in the 1980s. An attractive feature of the lot is very meticulous inclusion of such philatelic curiosities like regular first day cover followed by the same cover with an airmail sticker 'Par Avion' on it as in many instance the Fischer catalog points out the difference between regular and airmail covers. The lot is clearly aimed at dealers looking for breakdown and resale value simply due to the scope of the lot, since the lot could be easily broken down into couple dozens similar smaller lots covering the Polish philatelic history in great detail especially the period from 1960s to mid 1990s, VERY FINE	SB	6,000.00

Besides thousands of articles related to Mikolaj Kopernik, the lot includes many covers dedicated to Scouts, ships, variety of Polish cities and memorable events in Polish history. While postcards are somewhat dominating, the lot also includes in excess of maxi first day covers from the 21st century. This is an exhaustive lot with a myriad of subdivisions including several hundred used year sets from the second half of the 20th century covering Poland and even some neighboring countries like DDR or Czechoslovakia. Total estimated catalogue value of the lot would be in a region of \$30,000 combining postcards and year sets. One of the distinctive subsections of the lot would be an accumulation of roughly 5,500 first day covers from the late 1950s going all the way to 2008, high percentage of sets are presented on multiple covers. Overall number of postal cards is twice as high with over 11,000 including great number of touristy and commemorative cards along with traditional postal reply cards. All of the postal cards and first day covers are very neatly organized in chronological order, grouped by year of issues, with all the duplicates grouped by year of issue or occasion. The only exception would be the personal correspondence, which includes some foreign letters, but generally in some way related to the general theme of Poland. Duplication is in many cases relatively high, and the lot would be most appealing to dealers looking to break it down into smaller lots. While the duplication is generally high, in many cases, and especially so in the case of first day covers, the duplication is rather uniform and thus accommodating to forming multiple comprehensive collections covering the second half of the 20th century. Great lot	SB	1,000.00	2681	*0	[MACAO - HIGH QUALITY COLLECTION!] Very attractive and comprehensive collection of over 500 different mostly mint issues covering the philatelic history of Macao from the very first set to the late 1990s. Macao technically was the first country to be colonized by the western colonial powers in Asia and also the last one as Portuguese governor left in 1999, such a rich and diverse history that fused together European and Chinese heritage is beautifully presented on the stamps of Macao. The collection combines early period premium standouts with modern high value souvenir sheets from the 1980s.
