In every case the make up of the subsection is similar as individual stamps are presented alongside hundred of souvenir and miniature sheets, as well as complete sheets of 12-16-20 stamps or complete booklets. Nearly every one of the thousands of stamps in this wonderful 83 volume (!) collection (in five large cartons) is identified by the Stanley Gibbons Victoria specialized catalog number, along with identifying characteristics (the vast majority of the stamps are different Gibbons varieties, not just quantities of the same stamp). The quality is excellent and the collector spent thousands of hours researching, mounting and neatly annotating this collection (and he spent over \$100,000 on it as well). Neatly cataloged by the 2006-2008 Gibbons catalog, the collection has a Gibbons value L585,000= \$790,000). We flat scanned one volume just as a taste of what you get (remember the collection is 83 volumes). One of the nicest, specialized Great Britain collections in existence offered completely intact, at a very attractive price. This is a specialist's collection. The collector spent a loving lifetime on his stamps selecting thousands of stamps from Penny Reds to early twentieth century highly specialized by Gibbons plate numbers, shades, "Black Plates" on Penny Reds and all sorts of more arcane GB items. Included are some stamps that catalog up to \$2500 each but expect the real value of the collection to be a student's rendering of what highly specialized nineteenth and early twentieth century GB philately can look like. Everything is neatly annotated and mounted and can be easily broken down by volume</p>

The collection begins in the 19th century, but by far the bulk of attention is focussed on the 1930s and especially Third Reich era. The collection includes a great variety of premium standouts like the souvenir sheet from 1930 Philatelic Exhibition in Berlin, and it is also very nice to see a plethora of never hinged sets from as it dramatically alters the value of the collection. The Bundespost has issued thousands of different cards, mostly as differing view cards in sets of up to 200 different views of each card. The collector who made this collection was an avid philatelist with a fierce desire to complete all of the cards, an active subscription to the Bundespost's sale program, and an enormous amount of money 9his invoices for the collection totaled over 20,000 Deutsche Marks. this collection has about 8500 different cards either mint or with First day cancels, all in complete sets. The current Michel catalog is over 15000 Euros and you would be hard pressed to find a similar collection for love or money. If your traditional Germany collection of stamps needs little for completion, this is a good area to invest your energies with relatively low cost per item, high quality and great philatelic interest.

Individually just some of the standouts include mint [#7-9 (NH), 10-14 (with tabs NH),] attractive Palestine stamps including mint [#79,] and much more. 2017 *0	<p>[HIGH QUALITY INTERNATIONAL COLLECTION] Very attractive international selection of well in excess of 70,000 mint and used stamps as well as 23 volumes of sparsely populated Scott International albums going well into the 1980s. The lot essentially represents high quality international selection on a variety of different album pages with very limited duplication that was acquired over the lifetime and never made it into an organized set of albums. Previous collector was a keen buyer, number of pages still have purchase slip from an auction house or Ebay, pursuing a variety of different topics whether it's British colonial sets from the early 20th century or Cold War period Romania. This lot would most surely require an effort to organize and shape it into a comprehensive worldwide collection that it is ought to be, but realistically these eight cartons hold everything required to do so. The collection includes a variety of different premium subgroups most notably mint premium sets from British Commonwealth from 1930s and 40s with beautiful sets from British Africa, British India, including a myriad of states, an appealing selection of Middle Eastern sets from the same period, 19th century Europe (expansive section of Scandinavia including some very early premium standouts) and so much more ready and waiting to be taken off the pages they are at the moment and contribute to forming a truly high grade collection, as overall catalog value would surely be astronomical. As as duplication goes it is very low, namely due to the nature of how the stamps are presented - mostly on a variety of album pages rather than stockpages. This is a type of lot that would require embracing the old school philately, but the rewards would surely be worth it, gen. Practically every premium sub section one would expect is represented in a comprehensive manner with most focus on the traditional European countries including extensive sections covering Britain, Germany, Austria, Eastern & Central Europe, as well as numerous individual state issues from Germany or Italy prior to unification showcasing stamp in their infancy. The album lists awards it received at philatelic shows during the 1890s, when it 4,000 plus illustrations represented a pinnacle of technology when it comes to storing your collection. However one views old albums the quality of the collection is truly superb, as it includes hundreds upon hundreds of stamps that would normally be listed on their lonesome due to their individual catalog value being in hundreds. This is such a well-rounded comprehensive collection as much as 19th century worldwide philately can be summed up in just one volume. American subsection would be far the largest and it contains used Columbians up to 50c (with some duplication), number of early period airmails including mint Baby Zeppelin, and literally thousands of postage dues and revenue stamps among other back-of-the-book standouts. Duplication levels vary dramatically throughout the lot as it contains album pages and sub collections housed with glassines full of stamps in their hundreds. [MINT & USED INTERNATIONAL] This is a
massive mint mostly used selection of
close to 12,000 stamps covering a number
of countries arranged in alphabetic order
from China to Hungary with a focus on the
middle of the 20th century. Duplication
varies form country to country and in some
cases might be higher, but generally is very
manageable and the selection as a whole
is very well organized. The sheer volume of
stamps should make this appealing for
breakdown and resale as national
selections could easily be formed, F-VF
