730	*	[(96),]VERY FINE, og	CV	625.00	wonderful 83 volume (!) collection (in five large cartons) is identified by the Stanley Gibbons Victoria specialized catalog number, along with identifying characteristics (the vast majority of the stamps are different Gibbons varieties, not just quantities of the same stamp). The quality is excellent and the collector spent thousands of hours researching, mounting and neatly annotating this collection (and he spent over \$100,000 on it as well). Neatly cataloged by the 2006-2008 Gibbons catalog, the collection has a Gibbons value L585,000= \$790,000). We flat scanned one volume just as a taste of what you get (remember the collection is 83 volumes). One of the nicest, specialized Great Britain collections in existence offered completely intact, at a very attractive price. This is a specialist's collection. The collector spent a loving lifetime on his stamps selecting thousands of stamps from Penny Reds to early twentieth century highly specialized by Gibbons plate numbers, shades, "Black Plates" on Penny Reds and all sorts of more arcane GB items. Included are some stamps that catalog up to \$2500 each but expect the real value of the collection to be a student's rendering of what highly specialized nineteenth and early twentieth century GB philately can look like. Everything is neatly annotated and mounted and can be easily broken down by volume (SG catalog value over 590,000 pounds= \$800,000)	SB	**, ***.00

The Bundespost has issued thousands of different cards, mostly as differing view cards in sets of up to 200 different views of each card. The collector who made this collection was an avid philatelist with a fierce desire to complete all of the cars, an active subscription to the Bundespost's sale program, and an enormous amount of money 9his invoices for the collection totaled over 20,000 Deutsche Marks. this collection has about 8500 different cards either mint or with First day cancels, all in complete sets. The current Michel catalog is over 15000 Euros and you would be hard pressed to find a similar collection for love or money. The collection is built around two Scott Specialty albums with number of early period issues with tabs etc, but then an attractive feature of the collection is an inclusion hundreds of pages with very informative annotations displaying much more obscure peculiarities of Israel's philately like early Palestine overprints, local issues, charity stamps and so much more. 2523	*0	[POLAND] An immense mostly mint stock accumulation of close to half a million stamps organized in catalog order housed in 13 large cartons. The catalog value of the lot would be well in excess of \$200,000 as the selection includes many premium issues form an earlier period like dozens of the never hinged souvenir sheets commemorating the visit of King Karol to Poland in 1937, each set has a catalog value of \$120! While the lot includes good number of issues from the first half of the 20th century, by far the bulk of the volume of the lot is made up from the issues from between 1970s and 90s duplicated in stock quantities. The lot is primarily and nearly virtually all mint as just the mint portion of the lot would come to over \$170,000 and a such would most appeal to dealers looking for resale potential, especially since roughly 7,000 miniature/souvenir sheets are still packed in post office packets of 100 as issued. All the issues are neatly grouped together and arranged in Scott catalog order, which would facilitate multiple comprehensive collections of modern period Polish philately.	SB	40,000.00	2526	*0	[POLAND] An extensive mint and used stock selection of around 100,000 stamps covering primarily the second half of the 20th century housed in seven largest cartons of ours. The selection starts with stamps from the late 1950s and goes all the way to 2011, all throughout very neatly organized in Scott numbered stockbooks. The last twenty years account for a major bulk of the total catalogue value of well over \$50,000 in total. Attractively the lot includes thousands of souvenir and miniature sheets, four volumes dedicated to souvenirs sheets exclusively, generally duplicated in very much comparable quantities to the regular issues. Overall duplication levels are very manageable (generally ranging between a dozen copies of mint and used sets and here and there 30-40 together, but very well organized thus manageable) and fairly uniform throughout, so the lot should certainly appeal to dealers looking for breakdown and resale potential, as one could make dozens of very comprehensive collections of modern Poland, VERY FINE, mint og, most NH	SB	8,000.00
2524	*0	[POLAND] Very nice and neatly organized extensive stock accumulation of roughly quarter of million mint and used stamps housed in Scott numbered glassines sprawling through fourteen large cartons. The lot covers the second half of the 20th century with scores of souvenir and miniature sheets accompanying the regular issues. In total the catalog value for the lot is roughly \$180,000 fairly evenly split between mint and used issues. Besides regular issues the lot includes a lot of footnoted imperforated varieties like [#763 (imperf sheets 40),] and many others. The lot is very neatly organized in chronological order and even the high duplication levels are very manageable. This is certainly a dealer's lot as the selection could be broken down into dozens upon dozens of smaller selections, VERY FINE, mint og, mint NH	SB	40,000.00	2527	CV	[POLAND] Huge accumulation of roughly 15,000 articles like postcards, overprinted covers, first day covers, regular covers from Poland and international ones in one way or another related to Poland. The lot is largely topical as for example it includes cards and covers celebrating the legacy of Nicolaus Copernicus on Polish covers as well as US and other countries. Besides thousands of articles related to Mikolaj Kopernik, the lot includes many covers dedicated to Scouts, ships, variety of Polish cities and memorable events in Polish history. While postcards are somewhat dominating, the lot also includes in excess of maxi first day covers from the 21st century. This is an exhaustive lot with a myriad of subdivisions including several hundred used year sets from the second half of the 20th century covering Poland and even some neighboring countries like DDR or Czechoslovakia. Total estimated catalogue value of the lot would be in a region of \$30,000 combining postcards and year sets. All in due to extensive duplication levels as many articles include dozens of duplicates this lot would be most suited to dealers looking for resale potential as such vast quantities of Eastern European articles come by rarely on this side of the Atlantic, gen. 2525	*	[POLAND - MINT MODERN STOCK] Huge mint modern accumulation of close to 300,000 stamps in total covering primarily the last three decades of the 20th century sprawling over seven large cartons. Despite the volume of the lot, it is very well organized as every issues is housed in Scott identified folders, mostly in complete sheets of 20-35-50. In total the lot adds up to just under \$130,000 in catalog value! The duplication levels varying from a dozen of stamps to dozens of complete sheets like for instance in the case of Royalty Issues of 1986 and numerous subsequent sets celebrating the Polish nobility. Great number of issues are still in original wrapping as issued by the Polish post office in packets of 100 sealed, never opened. The lot could be broken down into hundreds of individual lots presenting modern Polish philately in a comprehensive manner as scores of stamps are included with se-tenant labels.			2528	*0	[POLAND] Huge accumulation of thousands upon thousands of mint and used issues covering the Polish philately of the mid 20th century going from the 1940s to the 1980s. The lot combines postal issues with an extensive selection of postal covers, first day covers and other philatelic items like postcards etc. The lot is dominated by the Polish postal issues and just the stamps alone add up to roughly \$38,000 in catalog value, then there are hundreds of articles from outside Poland. This is a massive lot contained in six large		

		cartons (nearly two cartons are taken up by covers, postcards etc.) and should appeal to dealers looking for breakdown value as duplication is generally high throughout. One notable standout section is the Butterflies issue of 1991 that is duplicated in vast quantities (includes over a thousand complete sheets as well as souvenir sheets!), gen. VERY FINE, mint og, many NH	SB	6,000.00		manageable, thus the lot should appeal to dealers looking for resale potential as the lot could be broken down by decades or individual year sets with relative ease, VERY FINE	SB	3,500.00	
2529	CV	[POLAND - FIRST DAY COVERS] Massive accumulation of over 25,000 first day covers bearing Polish stamps from 1954 to 2000 housed in eleven large cartons. Despite the massive scope of the lot it is very well organized in chronological order with roughly 1,500 different covers. The duplication levels are progressive as the time goes on changing from 4-6 to 20-30 in the 1980s. An attractive feature of the lot is very meticulous inclusion of such philatelic curiosities like regular first day cover followed by the same cover with an airmail sticker 'Par Avion' on it as in many instance the Fischer catalog points out the difference between regular and airmail covers. The lot is clearly aimed at dealers looking for breakdown and resale value simply due to the scope of the lot, since the lot could be easily broken down into couple dozens similar smaller lots covering the Polish philatelic history in great detail especially the period from 1960s to mid 1990s, VERY FINE	SB	6,000.00	2532	*0	[MINT & USED SELECTION] of close to 15,000 stamps covering mostly the 1970s housed in three large stockbooks and seven counter stockbooks. An entire lot is very neatly organized with every issue identified and mint and used issues housed side by side. The lot includes moderate to high duplication levels where most issues are duplicated 20-30 times, in some cases much higher. Virtually all the mint issues are never hinged and in total the catalog value would be roughly in the region of \$8,500! The lot also includes couple hundred covers from the period. 2530	CV	[POLAND - DEALER'S POSTAL HISTORY LOT] An extensive selection of well over 25,000 philatelic articles from the second half of the 20th century including postal covers, FDCs, as well as huge number of postcards, postal cards and other. This massive lot is housed in 8 large cartons. One of the distinctive subsections of the lot would be an accumulation of roughly 5,500 first day covers from the late 1950s going all the way to 2008, high percentage of sets are presented on multiple covers. Overall number of postal cards is twice as high with over 11,000 including great number of touristy and commemorative cards along with traditional postal reply cards. All of the postal cards and first day covers are very neatly organized in chronological order, grouped by year of issues, with all the duplicates grouped by year of issue or occasion. The only exception would be the personal correspondence, which includes some foreign letters, but generally in some way related to the general theme of Poland. Duplication is in many cases relatively high, and the lot would be most appealing to dealers looking to break it down into smaller lots. While the duplication is generally high, in many cases, and especially so in the case of first day covers, the duplication is rather uniform an thus accommodating to forming multiple comprehensive collections covering the second half of the 20th century.
