792	*0	GREAT BRITAIN Classic philately emphasized the study of minute varieties on classic stamps and the early stamps of Great Britain are among the most specialized in the world. Nearly every one of the thousands of stamps in this wonderful 83 volume (!) collection (in five large cartons) is identified by the Stanley Gibbons Victoria specialized catalog number, along with identifying characteristics (the vast majority of the stamps are different Gibbons varieties, not just quantities of the same stamp). The quality is excellent and the collector spent thousands of hours researching, mounting and neatly annotating this collection (and he spent over \$100,000 on it as well). Neatly cataloged by the 2006-2008 Gibbons catalog, the collection has a Gibbons value L585,000= \$790,000). BELGIUM - PREMIUM COLLECTION Fascinating collection of exceptional quality tracing Belgian postal issues from the very first set of two imperf Epaulets issued in 1849 and going all the way to the mid 1980s almost a century and a half later. This is a massive and highly complete collection of some 2,500 different issues together forming a very well rounded presentation of Belgian philately housed in a pristine dedicated Minkus album. Catalog value of the collection would add up to an astronomic figure, as the ratio of premium is attractively high. Generally used stamps are to found almost exclusively in the 19th century section, while 20th century is virtually all mint and includes scores of premium, high value sets. Even mentioning just some of the individual premium standouts might seem like a torrent of philatelic bliss flowing freely out The Horn of Plenty as collection includes virtually complete run very high value semi-postal issues, some approaching \$1,000 in catalog value per set, nicely supported with appropriate souvenir sheets. Individually most notable standouts include premium highlights like mint #56, 59, 72, 75, 82-91, 101, 108-122, 171a, 172-184, 221, 235, 236, 251-253, 374-385, 435-445, B514, B10, B44, B45, B46, B69-B77, B78-B83, B99-B105, B107-B113, B114-B122, B124-B125, B114-B122, B132-B143, B144-B150, B169 (NH), B178, B179, B199 (NH), B426-B431, B437-B441, B442-B446, B458a, B482a, B499-B502, B503-B510, B515-B520, B523-B530, B532-B537, B538-B543, B544-B546, B547-B554, B555-B557, B558-B560, B561-B566, B567-B572, B573-B578, B579-B585, B605a, B606-B610, C5, Q78, Q79, Q80, Q267-Q290, Q310-Q325, Q327, Q328-Q335, Q343-Q361B, Q362-Q364, used #1-2, 3-5, 6-8, 12, 13-16, 23, 25b, 28-36, 45-48, M106 and many others, gen. COLOMBIA & STATES

1445 \*0 COLOMBIA & STATES Very impressive collection of couple thousand mint and used issues covering Colombian philately from the earliest days, with hundreds of issues from the 19th century, and going well into the 1960s housed in a pair of albums. The collection is housed in a pair of very meticulously annotated albums, as the collection is put together by a true enthusiast of Colombian philately, listing every minor variety, often with commentaries about certain catalog makers preferences etc. The collection boasts great number of early period premium standouts from regular issues and especially so from a very strong back-of-the-book section including individual standouts like mint #38, 39m (2), 45, 349, 350, 447, 511a, 513, 644-665, C166-C174, C200-C207, C208-C216, C278a, C317-C318, C566a, F1 (3), F2, F7, used #6, 6a, 6d, 7, 10, 11, 26, 28, 30 (3), 40 (2), 49, 51, 53-57, 57b, 64 (2), 65 (6), 69d, 149, 323-324, 324, C121-C133, C317-C318, F2 (2), F7 among them and many others. 1594	*0	FRANCE - AWESOME PREMIUM COLLECTION - France was a global power house at the time when postal stamps were introduced and it should come as no surprise that French philately covers the history of France, the world, as well as development of philately. This is a beautiful and very comprehensive collection of over 3,000 different mostly mint issues housed in nine pristine hingeless SAFE albums with slipcases (retail value for albums alone in excess of \$2,000!) The collection covers a century and a half long period from the very first issues 1849 (Complete first set!) and goes all the way to 2000 with scores of premium standouts in between. The collection includes number of superb souvenir sheets like 1925 Philatelic Exhibition Issue, 1927 Strasbourg Exhibition Issue, and 1937 International Philatelic Exhibition in Paris (all with exhibition cancels) that are generally encountered offered as individual stamps due to exorbitant catalogue value. Overall the period from 1920s and 30s includes scores of premium never hinged standouts, regular issues and semi-postal sets. The lot includes a very high ratio of souvenir and miniature sheets with all of them individually packed in Scott numbered envelopes and glassines. Sizeable portion of the lot is made up by inclusion of complete sheets of Famous women from 1986-91 in sheets of 100 and subsequent issues. The Bundespost has issued thousands of different cards, mostly as differing view cards in sets of up to 200 different views of each card. The collector who made this collection was an avid philatelist with a fierce desire to complete all of the cars, an active subscription to the Bundespost's sale program, and an enormous amount of money 9his invoices for the collection totaled over 20,000 Deutsche Marks. this collection has about 8500 different cards either mint or with First day cancels, all in complete sets. The current Michel catalog is over 15000 Euros and you would be hard pressed to find a similar collection for love or money. covers bearing Polish stamps from 1954 to 2000 housed in eleven large cartons. Despite the massive scope of the lot it is very well organized in chronological order with roughly 1,500 different covers. The duplication levels are progressive as the time goes on changing from 4-6 to 20-30 in the 1980s. An attractive feature of the lot is very meticulous inclusion of such philatelic curiosities like regular first day cover followed by the same cover with an airmail sticker 'Par Avion' on it as in many instance the Fischer catalog points out the difference between regular and airmail covers. The lot is clearly aimed at dealers looking for breakdown and resale value simply due to the scope of the lot, since the lot could be easily broken down into couple dozens similar smaller lots covering the Polish philatelic history in great detail especially the period from 1960s to mid 1990s, VERY FINE

[POLAND] Huge accumulation of roughly 15,000 articles like postcards, overprinted covers, first day covers, regular covers from Poland and international ones in one way or another related to Poland. The lot is largely topical as for example it includes cards and covers celebrating the legacy of Nicolaus Copernicus on Polish covers as well as US and other countries. Besides thousands of articles related to Mikolaj Kopernik, the lot includes many covers dedicated to Scouts, ships, variety of Polish cities and memorable events in Polish history. While postcards are somewhat dominating, the lot also includes in excess of maxi first day covers from the 21st century. This is an exhaustive lot with a myriad of subdivisions including several hundred used year sets from the second half of the 20th century covering Poland and even some neighboring countries like DDR or Czechoslovakia. Total estimated catalogue value of the lot would be in a region of \$30,000 combining postcards and year sets. This massive lot is housed in 8 large cartons. One of the distinctive subsections of the lot would be an accumulation of roughly 5,500 first day covers from the late 1950s going all the way to 2008, high percentage of sets are presented on multiple covers. Overall number of postal cards is twice as high with over 11,000 including great number of touristy and commemorative cards along with traditional postal reply cards. All of the postal cards and first day covers are very neatly organized in chronological order, grouped by year of issues, with all the duplicates grouped by year of issue or occasion. The only exception would be the personal correspondence, which includes some foreign letters, but generally in some way related to the general theme of Poland. Duplication is in many cases relatively high, and the lot would be most appealing to dealers looking to break it down into smaller lots. While the duplication is generally high, in many cases, and especially so in the case of first day covers, the duplication is rather uniform and thus accommodating to forming multiple comprehensive collections covering the second half of the 20th century. Great lot for dealers working with Eastern European philately, VERY FINE.
